ORDER OF NOTICE THEREON.

The Cat Catcher.

The dog catcher is not the only person in the city who is sincerely hated by both man and animal. There is a cat catcher as well, and he comes in for his full share of antipathy. He makes a living at the business, and a very good one, it is said. Few are aware of the fact that pussy's fur is a very desirable article of commerce. There are any number of dealers in this city who are glad to pay all the way from 50 cents to \$1 for a cat's skin, according to size and quality. The method of catching the unsuspicious cat is a particularly mean one. It is a well established fact that cats are very fond of catnip and will troop after a man who carries a bundle of it. This greed leads to the undoing of pussy, who will come to a stand if a bit of the herb is thrown on the ground and is thus made an easy prey. A bag and a chloroformed sponge do the rest, and many a household pet, the disappearance of which caused sorrow, can be accounted for in this way.—Philadelphia Press.

Photographed by Moonlight.

Everybody who loves to watch the heavenly bodies has frequently noticed when the crescent of the new moon appears in the west, the phenomenon called "the old moon in the young one's arms." Partly embraced by the horns of the crescent is seen the whole round orb of the moon, glimmering with a pale, ashy light. The cause of the appearance is that the earth light upon that part of the moon not reached by the sunshine is sufficiently brilliant to render it faintly visible to our eyes. Successful attempts have been made, particularly in France, to photograph this phenomenon, and the pictures thus produced are very interesting.—Youth's Companion.

Benny's Status.

"Papa," said Benny Bloomer, "I saw two bad boys flipping cents, and after awhile they went away, and when they had gone I found a penny." "Did you play yourself, Benny?" asked Mr. Bloomer. "No, papa." "Then you were an in-a-cent bystander."—Harper's Bazar.

Was designated for the holding of primaries, or otherwise selecting the delegates from the different counties. It was further ordered, that wherever considered feasible and practicable, the election of delegates should be by primary. When not so considered by the Democratic State Central Committee, such committees should name the delegates from their respective counties and in such counties as have no Democratic Central Committee, the local members of the Democratic State Central Committee shall either call primaries or themselves select the delegates from their respective counties.

The test for voters at the primaries and for delegates is as follows: I favor the free and unlimited coinage of gold and silver at the ratio of 16 to 1, and I pledge myself to vote for the nominees of the Democratic State Convention." JOHN H. DENNIS, Chairman.

THE WORK OF TRUSTS THE WORK OF THE REPUBLICAN PARTY.

There is not anything that explains or illustrates trust prosperity, connected as it is with the rule of the Republican party directed by trusts, like facts which give to trust prosperity its true meaning when it is applied to the people. There has been much said and written about prosperity and its results in the country under McKinley's administration. The dew of heaven and the natural fertility of the earth have been assigned as causes under his control directing prosperity to the country. The natural causes and effects of the seasons under natural law and the supreme order of things have been represented as servants to his will by ignorant persons, whose blather would have been blasphemy by more enlightened people than those who made the application.

Results of the will of the Creator, made known through His laws, and made operative as blessings for the maintenance of His creatures, were attributed to the controlling and all-powerful will of McKinley. When the results of such ignorance are received by a party and relied upon for its success, there should not be any surprise by the more intelligent and thoughtful among the people when trust rule is justified by the party. Imperialism and the rule of trusts and monopolies, with their blighting influence upon the country, which makes up the policy of the Republican party, is a natural outflow from the causes operating within it.

The Democratic congressional committee has lately given out some of the real causes that make up trust prosperity, which is the only prosperity there is in the land. These causes arise in and are taken from one department only of trust and monopoly prosperity work. It requires fifty per cent more wheat to buy a shive than it did in 1896. Twenty bushels more corn must be put up to buy a wagon than was required in 1896.

There is required to buy a copper kettle one hundred per cent more than was required in 1893. A coat of robe is double the value it was in 1893. A plow costs forty per cent more than it did in 1896. A hoe, a rake or a shovel is seventy-five per cent dearer than in 1896. A set of common wheels that cost \$7 in 1896 cost \$12 now. The cost of all farm implements have gone up in like figures. Barbed wire costs \$4 to \$5 more than it cost per hundred four years ago. It requires forty per cent more corn to buy a pound of sugar than it required four years ago.

Glass costs forty per cent more than it did in 1893 and freights have gone up to a place where the charges a few years ago caused a popular revolt and legislation to control them came as a result of exorbitant freight charges, which would not have occurred had Charles Wallace been east of the mountains. The prices of oil, coal, lumber, tools and hardware have gone up from forty to one hundred per cent all over the east to the impoverishment of the people. The increase cost in each instance is upon articles manufactured or controlled by trusts.

There has been no perceptible increase in the price of raw material from which the trust articles are manufactured, except copper, which has increased in price because of a general demand for the metal. The trust is an enemy that does not sleep as its work is without end in the lines it is applied. The people are robbed when they sleep, when they are awake, when they pray or visit a friend, come what will to the industrious citizen, the trust is present and has its finger in for its share in all there is done to earn a dollar by any of the people. In a most ruthless manner the trust is arranged to catch the poor and the individual in all they do. They are not exempt from its villainies in death as the coffin that receives the body is subject to the extortion of trusts and the estate of the dead man is made subject to robbery by these criminal combinations.

But it will be claimed by a few who are insane about party that Mark Hanna stated the truth when he said at the opening of the last session of Congress that trusts were doing no harm. Republicans, from information derived by the JOURNAL from the most trust worthy source, are taking very little interest in campaign work. The weight there is upon the party is such that an honest man who is identified with it has not the courage remaining to look at the face of a villain. There is no cause to continue such conditions upon any honest man, when the way is open to him to give his aid to remove

them, which open way very many life long Republicans have sought and found to their relief in consequence, while the good work goes on that will save the republic from imperialism and the people from slavery.

INFORMATION WANTED.

There were in New York City ten thousand names added in one day to the roll of names in national Democratic clubs, and like work is going forward everywhere beyond Nevada. There was a spasm of patriotism that made an appearance some time ago that gave promise that a Bryan club would be organized in Reno in the near future. The JOURNAL would like to be informed upon the whereabouts of the patriotism and the supporters of Bryan. There was a large list of names on the roll but there is no club or anything that would permeate a State in that there is a Bryan man in the State.

It looks very much like McKinley or Charles Wallace has been around a corner giving instructions. There is no reason in existence against forming a Bryan club on the Democratic side among Bryan supporters. It is a duty there is upon each Democrat to make a beginning that will let our sister States know that Nevada is for Bryan. Should there be any political slate in the way of such an organization the first thing that should be done by honest voters is to make a club that will break them. The methods of Wallace and his gang will without a doubt make their appearance in Washoe, but there is a disposition out cropping to sit down on Wallace and the practices of his gang in politics in Nevada.

MINES AND MINING

Items About Nevada's Leading Industry Clipped From Exchanges.

Prospectors are more numerous in Nevada mining districts this fall than in any previous year.

The forms of miners at Copper Flat have been temporarily laid off, pending arrangements for handling the water in the Star of the West shaft. Last Monday was payday.—White Pine News.

The Bonanza is a producing mine of Douglas county. A five-stamp mill is now being erected on the property and the capacity of the mill will be increased if it works the ore successfully. The ore averages \$25 per ton.—Silver State.

The water in the O. & C. shaft at Virginia City is now 185 feet below the 1950 level, or nearly 100 feet below the 2170 tunnel. This is the lowest depth reached since the installation of the hydraulic pumping system about a year ago.

We are reliably informed that a party of experts, including Professor Fred D. Smith of Montana University and Professor Oshman of Cornell University, will arrive here in about a week to complete the sampling of the Oshman mine, in the interests of the New York capitalists who recently tied up the property.—White Pine News.

Brighter Outlook for Golconda.
An order was received at Golconda a few days ago from the Glasgow & Western company's office at Salt Lake directing the foreman of the Adelaide mine to pump the water from the shaft down to the 300-foot level. Since the recent shutdown the water has been only kept below the 200-foot level.
The order to drain the mine to the bottom would seem to indicate a resumption of work by the company. Possibly it is to be done for the purpose of permitting a thorough examination of the property by the officials of the company and experts who are expected at Golconda in a few days.

TWO NEW SMELTERS

A Rumor to That Effect is the Latest News of Interest to Miners.

The Reno Reduction Works has changed hands, the new smelter is rapidly nearing completion. Now we are to experience a regular boom in smelters. Two new projects along this line are the very latest items of telling interest at present arousing Reno's citizens out of a slumbering apathy.
Peavine's barren old hills can no longer be described by the adjective barren. It is ore, copper principally, that specializes the Peavine range as the exact reverse of a barren district.
Mining experts have so adjudged it, now we are to reap the benefits. With four smelters running full blast Reno will out rival any town in the far west. Some say that the Wedekind country shows indications of a second Cripple Creek; if so we shall all be glad we are alive and most of all—Reno citizens.

Calendar Clock Case Affirmed.

The Supreme Court of the State has filed its opinion in the appeal made in the suit of E. F. Sweeney vs. W. H. Patterson, affirming the judgment of the District Court, which was given for the defendant, W. H. Patterson.
The case largely disposes of the notes and sales made in Reno of territory in California in which the purchasers were permitted to sell calendar clock safes, so termed, fraud being the ground upon which the defense was made.
Sweeney, the plaintiff, claimed he was an innocent holder of the notes, and for that reason was not subject to a charge of fraud in the sales made. The courts believe otherwise.

New Subscriptions.

The financial side of the fair is a decided fact, as donations continue to roll in, and the thousand mark has been passed by, without any indications of a termination in the worthy cause. Yesterday's receipts were as follows:
Buffalo Brewing Co. \$25 00
P. L. Flanagan 25 00
Upson Bros. 5 00
F. D. King 10 00
George Schaffer 12 50
Previously acknowledged 1038 00

Republican Primaries.

Saturday the Republicans of Reno cast their votes for delegates to the State convention. There are some disappointed aspirants, as twenty-one desired the honor and only ten could be accommodated.
The following were elected: D. C. Wheeler, G. O. Wright, Roy Reese, A. Nelson, C. Kaiser, P. L. Flanagan, J. A. Fitzgerald, W. H. Goughlin, B. C. Clausen and Jay Olemons.
Mike Shields was elected delegate from Glendale.

Speedy Horses at the Track.

Splendid racing will be a drawing card at the State Fair next month. Horses with a record are in training at the track and more horses with records as good and even better will begin to arrive from other quarters in a week or so.
A mile has been sealed off by several of the horses referred to in less than 2:15. Lovers of good horse flesh can satiate their desire by taking in the coming fair.

New Born Elks Meet.

Last night Reno's newly organized fraternity of Elks met in the Investment hall. The local members take great interest in this society and intend to keep up this branch of Elks in a style befitting the universal high standard of the fraternal order.

Local Boxers Celebrate.

The josh house down in Chinatown is adorned with brilliant red and yellow flags; the flags are gaudily embellished with fierce-looking dragons and crazy hieroglyphics.
Cash, the high-toned merchant, informed us a big feast day was in progress, to which all good Celestials were invited.
The music emanating from the China band, reminds one of a wild night-mare, yet to the ear of a boxer it's naught but the concord of sweet sounds, and, forsooth, recalls visions of the beloved flowery kingdom.

A False Alarm.

About two months ago the Floriston Pulp and Paper Company's plant was started up at Floriston. In a short time complaints were made to the effect that the refuse matter was allowed to run into the river and that the stuff was sure to kill the fish. Fish Commissioner Goid of California and Deputy J. P. Babcock went over the ground and took samples of the liquid that flows into the Truckee. This was examined by Thomas Price, a leading chemist of San Francisco, who reported that the liquid contained no matter that is injurious to the fish.

Verdi Threatened.

It is said that Verdi, this State, presents a good field for a weekly paper, and several newspaper men now have their eye on that thriving little burg.—Exchange.
Beware, neighbor, you have no idea what this means. Prospects may be pleasing, but editors are brewers of much trouble and a thorn in the side of any peaceful little village.

Home Again.

Yesterday morning United States Marshal Emmitt and wife arrived from California, where Mr. Emmitt went for medical advice. Although he is not very strong, he is very much better than when he left. He is on the road to recovery and his many friends are delighted at his improved condition.—Carson News.

Washoe Lunch Counter.

Begin the Sabbath by partaking of a delicious breakfast with fried omelets, cream gravy and anything you might order. This popular place will serve up an equally palatable dinner in the afternoon. Harry Clausen understands the wants of hungry folks; besides he has a first-rate chef.

LITTLE LOCAL BREVITIES

Items of Street and Town too Brief for Separate Heads.

A train load of sheep was shipped in over the N. C. O. rails Friday afternoon.
Over a dozen car loads of horses were shipped to Nebraska from Parry's corral yesterday.
Prof. Wilson's new house is about completed. It is a model of convenience and elegance.
Hail storms prevailed up north yesterday afternoon, and Virginia City was the recipient of a cloud's watery contents which came down mauling at once.
The right of way wrangle has been settled. The Southern Pacific Company allowed Miss Wall and Mr. Blaisdell \$1,200 each for the privilege of laying rails through their respective ranches.
Thunder and lightning played an important part in the storm of yesterday. Suffolent rain fell to lay the dust in the streets. To the east and north a heavier precipitation must have occurred judging from signs.
The cool weather has given a new impetus to prospecting. In the early morning hours a rise of almost any description can be seen starting for the hills loaded with eager enthusiasts, some of whom will return disappointed for the time, but in no wise disheartened, as is evidenced by the industrious hum around the offices of our local assayers, they being kept on the jump from morning till night.

Needs Fixing.

The sewer pipe that was laid on Sixth street, between Center and Virginia streets, did not receive a proper interment.
An unsightly sag in mother earth marks the line of the sewer, and jars the inmates of passing vehicles.
Such conditions in our streets should be remedied as soon as possible.

Purchase of Horses.

C. O. Griswold has purchased eighty head of horses from J. R. Harvey in Paradise valley and will ship them to San Francisco in a few days. Mr. Griswold represents Grace & Co., who has a contract to furnish 2,500 cavalry horses to the German government.

"I had a severe attack of illness last year, and was confined to my bed for several weeks. I was entirely cured," says Rev. A. A. Jones, of Escondido, Cal. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief then called another doctor who treated him for some days and gave him no relief as discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." THE STOCKHOLDERS OF THE CALIFORNIA FISH SYRUP COMPANY are hereby notified that the annual meeting of the company, for the purpose of electing directors and transacting such other business as may lawfully come before said meeting, will be held at the office of J. J. QUINN, Secretary, in Reno, Nevada, on Monday, the 27th day of August, 1900.
At the hour of 3 p. m. for the election of five trustees to serve for the ensuing year, and to transact such other business as may lawfully come before said meeting.
J. J. QUINN, Secretary.
Reno, Aug. 6, 1900.
"Through the months of June and July our baby was teething and took a running of the bowels and sickness of the stomach," says O. P. M. Holliday, Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoon of water and he got better at once." Sold by W. Weiland.
